## IntelliStage modular staging systems

We confirm that we have calculated the IntelliStage system of company CIPEX International according to the following standards:

DIN 1052 Design of timber structures  
DIN 1055 Loadings on structures  
DIN 4112 Temporary structures  
DIN 4113 Aluminum constructions  
DIN 18800 Steel structures

We found out that this system meets necessary load requirements of 900 kg/m<sup>2</sup>.
